Dear Arthur,

Harold and I have decided to publish the book about the January 27 Warren Commission Executive Session transcript ourselves. I have already taken out a loan for this purpose and we expect the book to be printed very shortly.

We have already loaned out our only copies of the manuscript forpersons who needed to give immediate attention to it. In the short interval between now and the time the book is published, we could make good use of the copy of the manuscript we left with you. If you could mail it back to us within the next few days, we would be deeply appreciative.

Sincerelytyours,

Jim Lesar
